

MANTRAC CORPORATE PRESENTATION

You've invested in the industry's best

Ready for a long life of hard work: Cat products are engineered for performance, endurance and reliability.

Minimized downtime,
maximum uptime

Extended life built into
the engineering

Industry-leading
dependability

Components that can be
rebuilt over and over again

A best-in-class investment with
the lowest cost of ownership

Retaining the value of your investment is a challenge

Expertise

Reliable experts with a full suite of service capabilities are scarce.

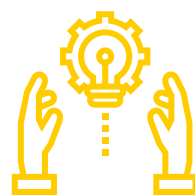

Availability

Availability of the right parts when you need them determines success or failure.

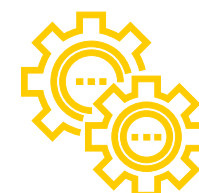

Management

Managing equipment, parts and service for maximum uptime is a challenge for all operators.

Support

Poor service facilities and capabilities delay projects and hurt profitability.

Reliability

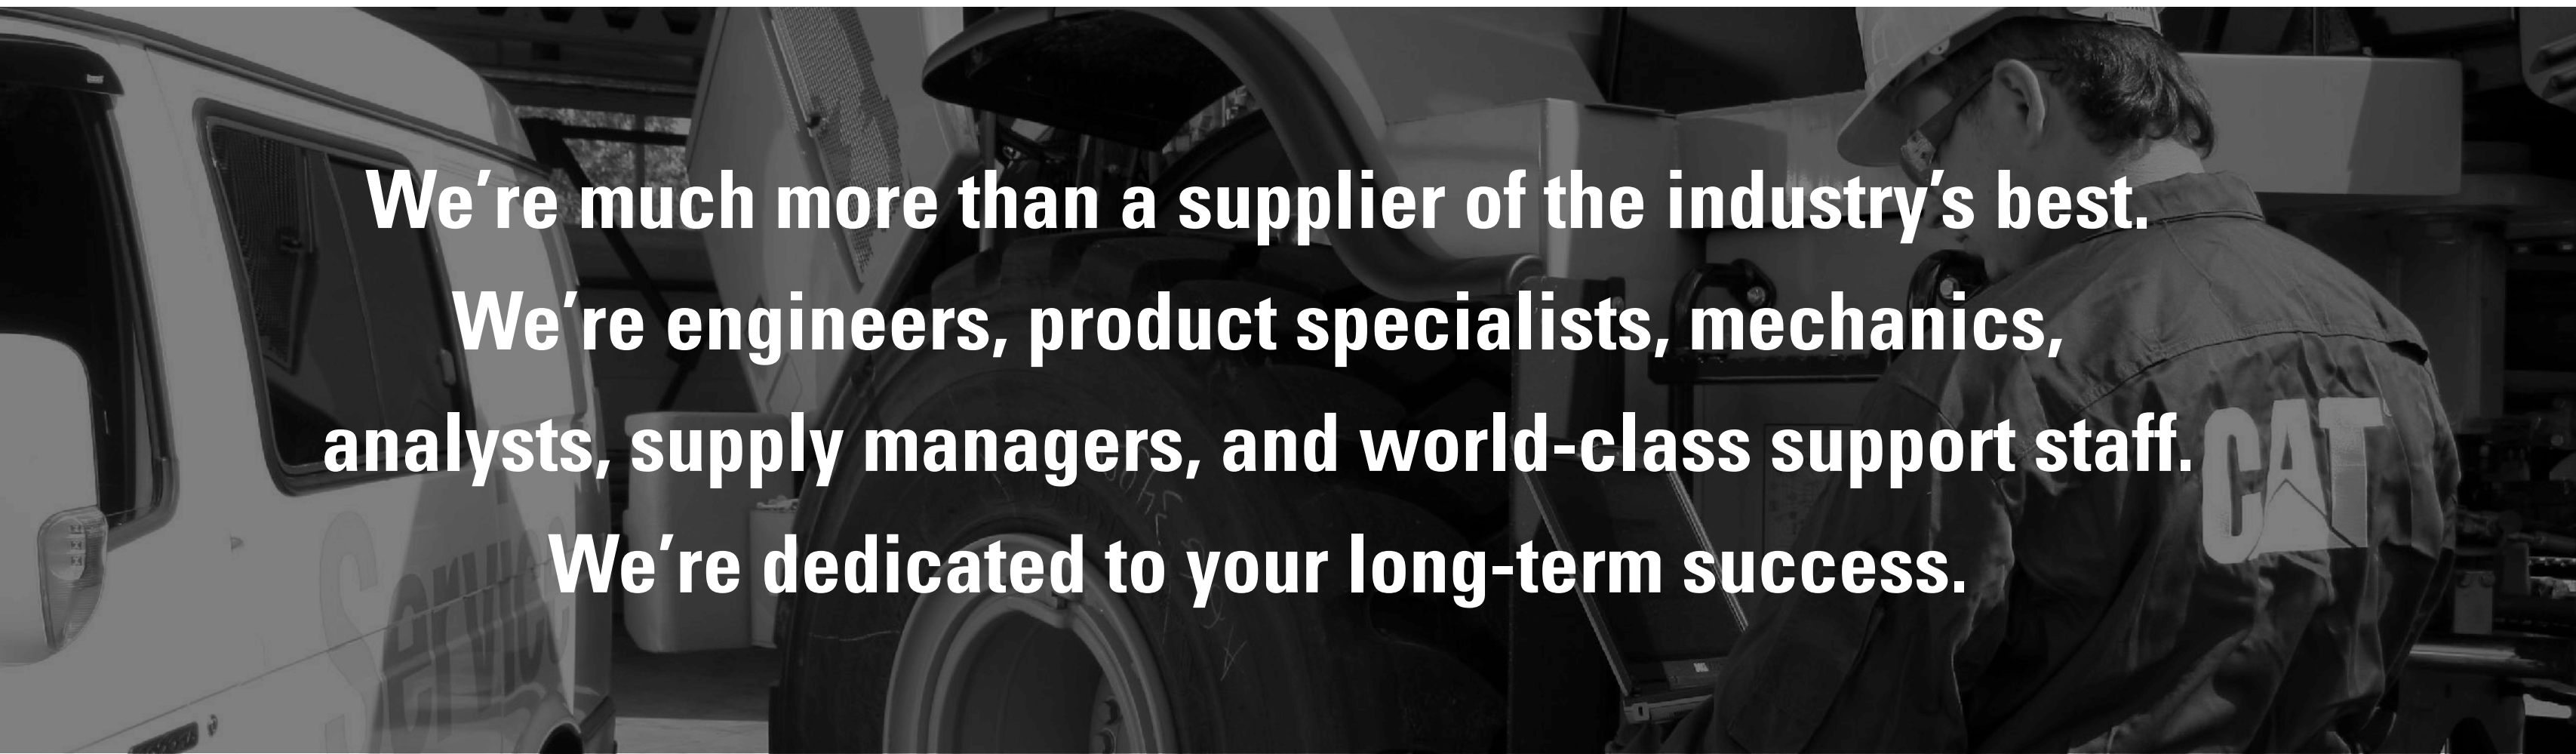

Acquiring quality parts that keep operations running and maximize uptime is a priority.

Presence

Lack of supplier presence complicates operations and increases costs.

Mantrac: your partner, advisor and solution provider

**We're much more than a supplier of the industry's best.
We're engineers, product specialists, mechanics,
analysts, supply managers, and world-class support staff.
We're dedicated to your long-term success.**

Collaborating to solve your challenges

Expertise

Experts with decades of experience with Cat's market leading products.

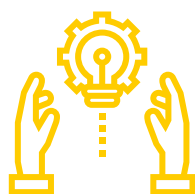

Availability

People and parts near you, keeping your operation running when things get difficult.

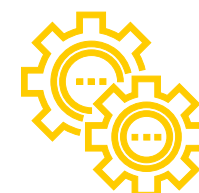

Technology

Connected assets give you access to data and a competitive edge.

Service

Cutting-edge systems, tools, capabilities and world-class service centers.

Performance

Genuine parts designed and manufactured to optimize your productivity and cost per hour.

Presence

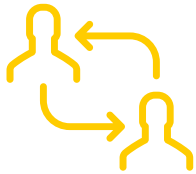

A certified Cat distribution network of specialists available where you need us.

SOLUTIONS

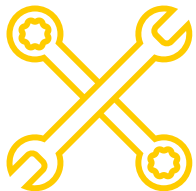

Mantrac helps keep your business running 24 / 7

As equipment becomes more advanced, the provision of parts and labor gets increasingly complex.

Mantrac teams are uniquely equipped with the expert knowledge required to protect your investment and ensure productivity.

Communicating exactly what's needed to maintain and repair.

Diagnosing and fixing rapidly, using in depth product knowledge.

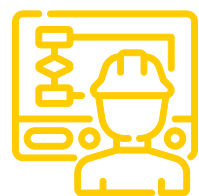

Advising on protecting your investment by extending machine life.

The latest industry thinking and solutions so you stay ahead.

Mantrac is a professional support partner, helping with:

Prognostics

Inform customers on what they need before they need it using analytics and expertise.

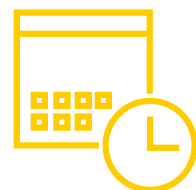

Proactive maintenance

Supply parts and service on time before failure and downtime occurs.

Safety

Install parts and carry out repairs safely with our professional staff.

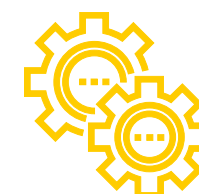

Timing

Carry out service work efficiently and within planned time limits.

Cost-optimization

Aligning to customer budgets with solutions that provide long term value.

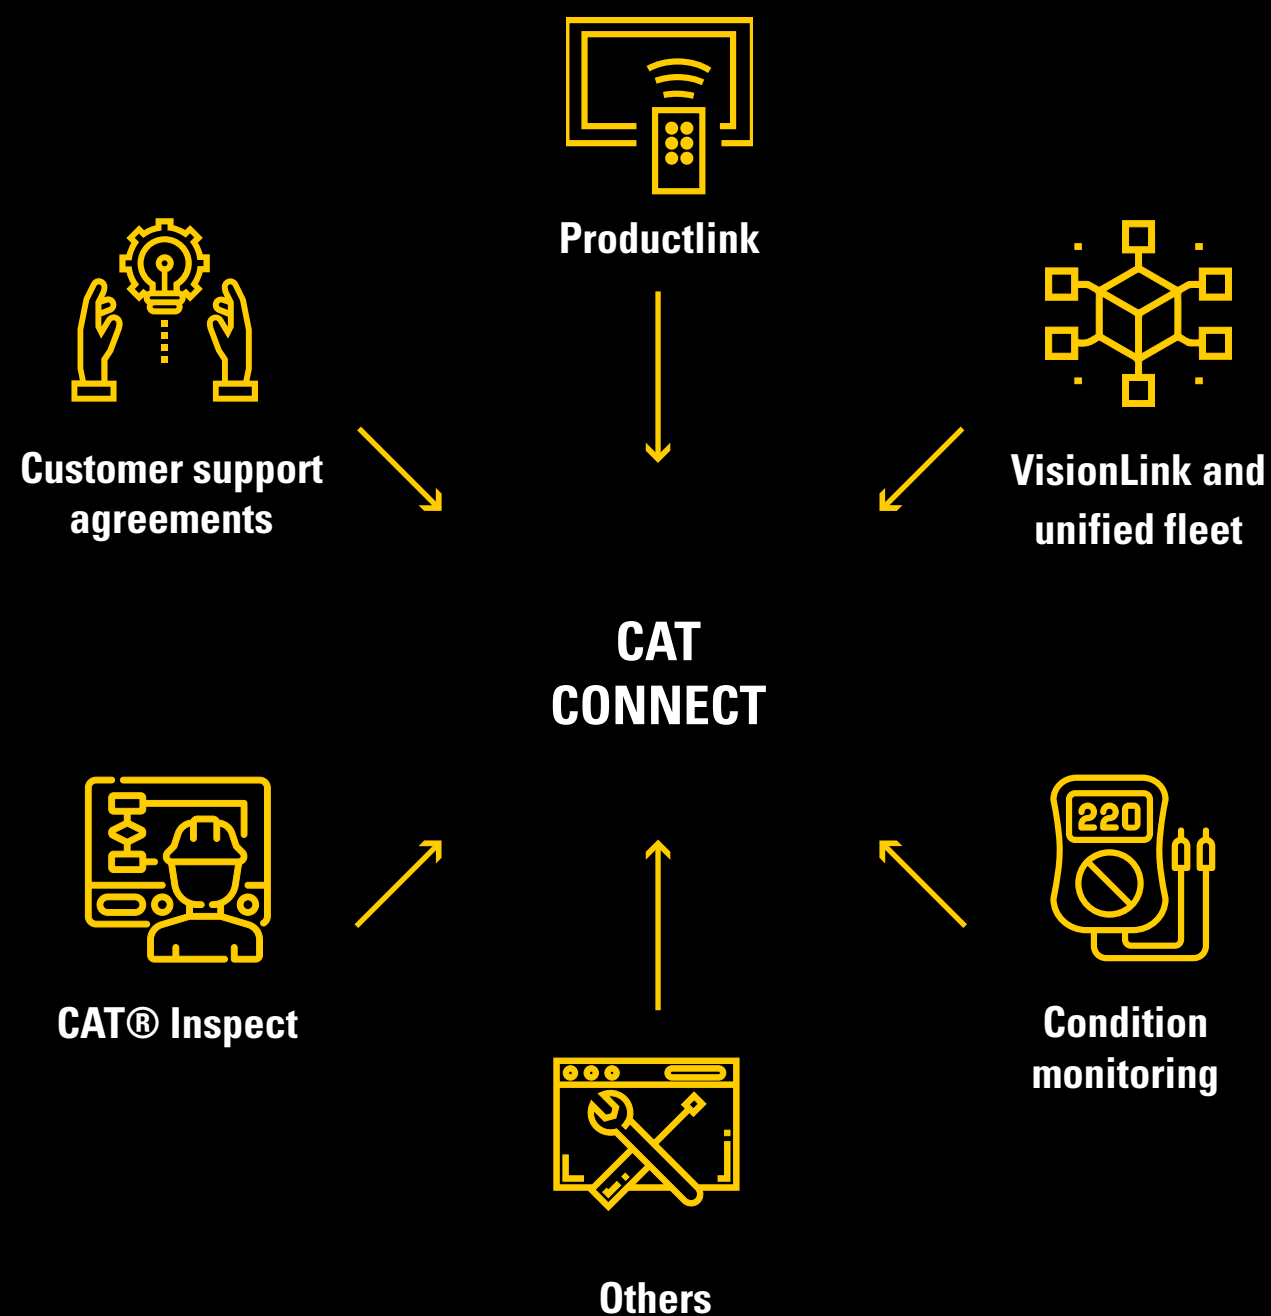

Efficiency

Provide digital tools to make transactions paperless and efficient.

Technology: keeping you a step ahead

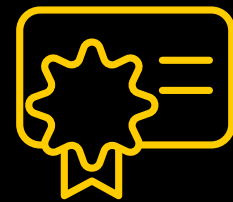

Mantrac can provide a full suite of technology offerings to help you collect, analyze and utilize data, helping you to become more efficient, lower your operating costs and improve your operations.

- Hardware
- Software
- Condition monitoring
- Applications

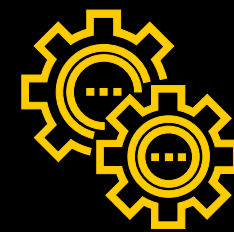

Performance: the most durable equipment in the industry

The best equipment means performance you can rely on and a return you can be certain of. Mantrac helps you achieve those goals.

Genuine parts

Delivering on the exact original specification and durability.

A lifetime of operations

Equipment and components built for a lifetime of operations with ongoing support.

Precision engineered

Components and consumables designed for compatibility and long life.

Equipment may stall, but business shouldn't

Uptime is crucial—when breakdowns occur, you need to be up and running immediately. Mantrac ensures high availability and continuous support.

Mantrac parts inventory

Mantrac holds over **\$100m in parts inventory** and has a vast distribution network connected directly to Caterpillar.

Strict storage conditions

Strict storage conditions that control contamination, and safe, fast, and on-time logistics on all shipments.

Sophisticated statistical models

Sophisticated statistical models and tracking processes help monitor stocks and ensure continuously high availability.

Multiple channels

Get **price and availability**, place orders, compare specs, and view technical data.

Mantrac provides superior servicing capabilities and facilities

Service from our global network, through our world class workshops or through an on-site maintenance appointment, is guaranteed to match the quality of the original machine.

Workshops

Our facilities are located where your are to minimize downtime, and all feature **five-star contamination control**.

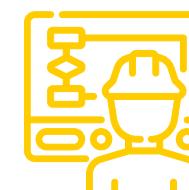

Test equipment

Our testing meets **Cat's precise quality standards**, ensuring repairs are fine-tuned before they are installed.

Tooling

We are **uniquely equipped** with the specialized technologies required to service your equipment.

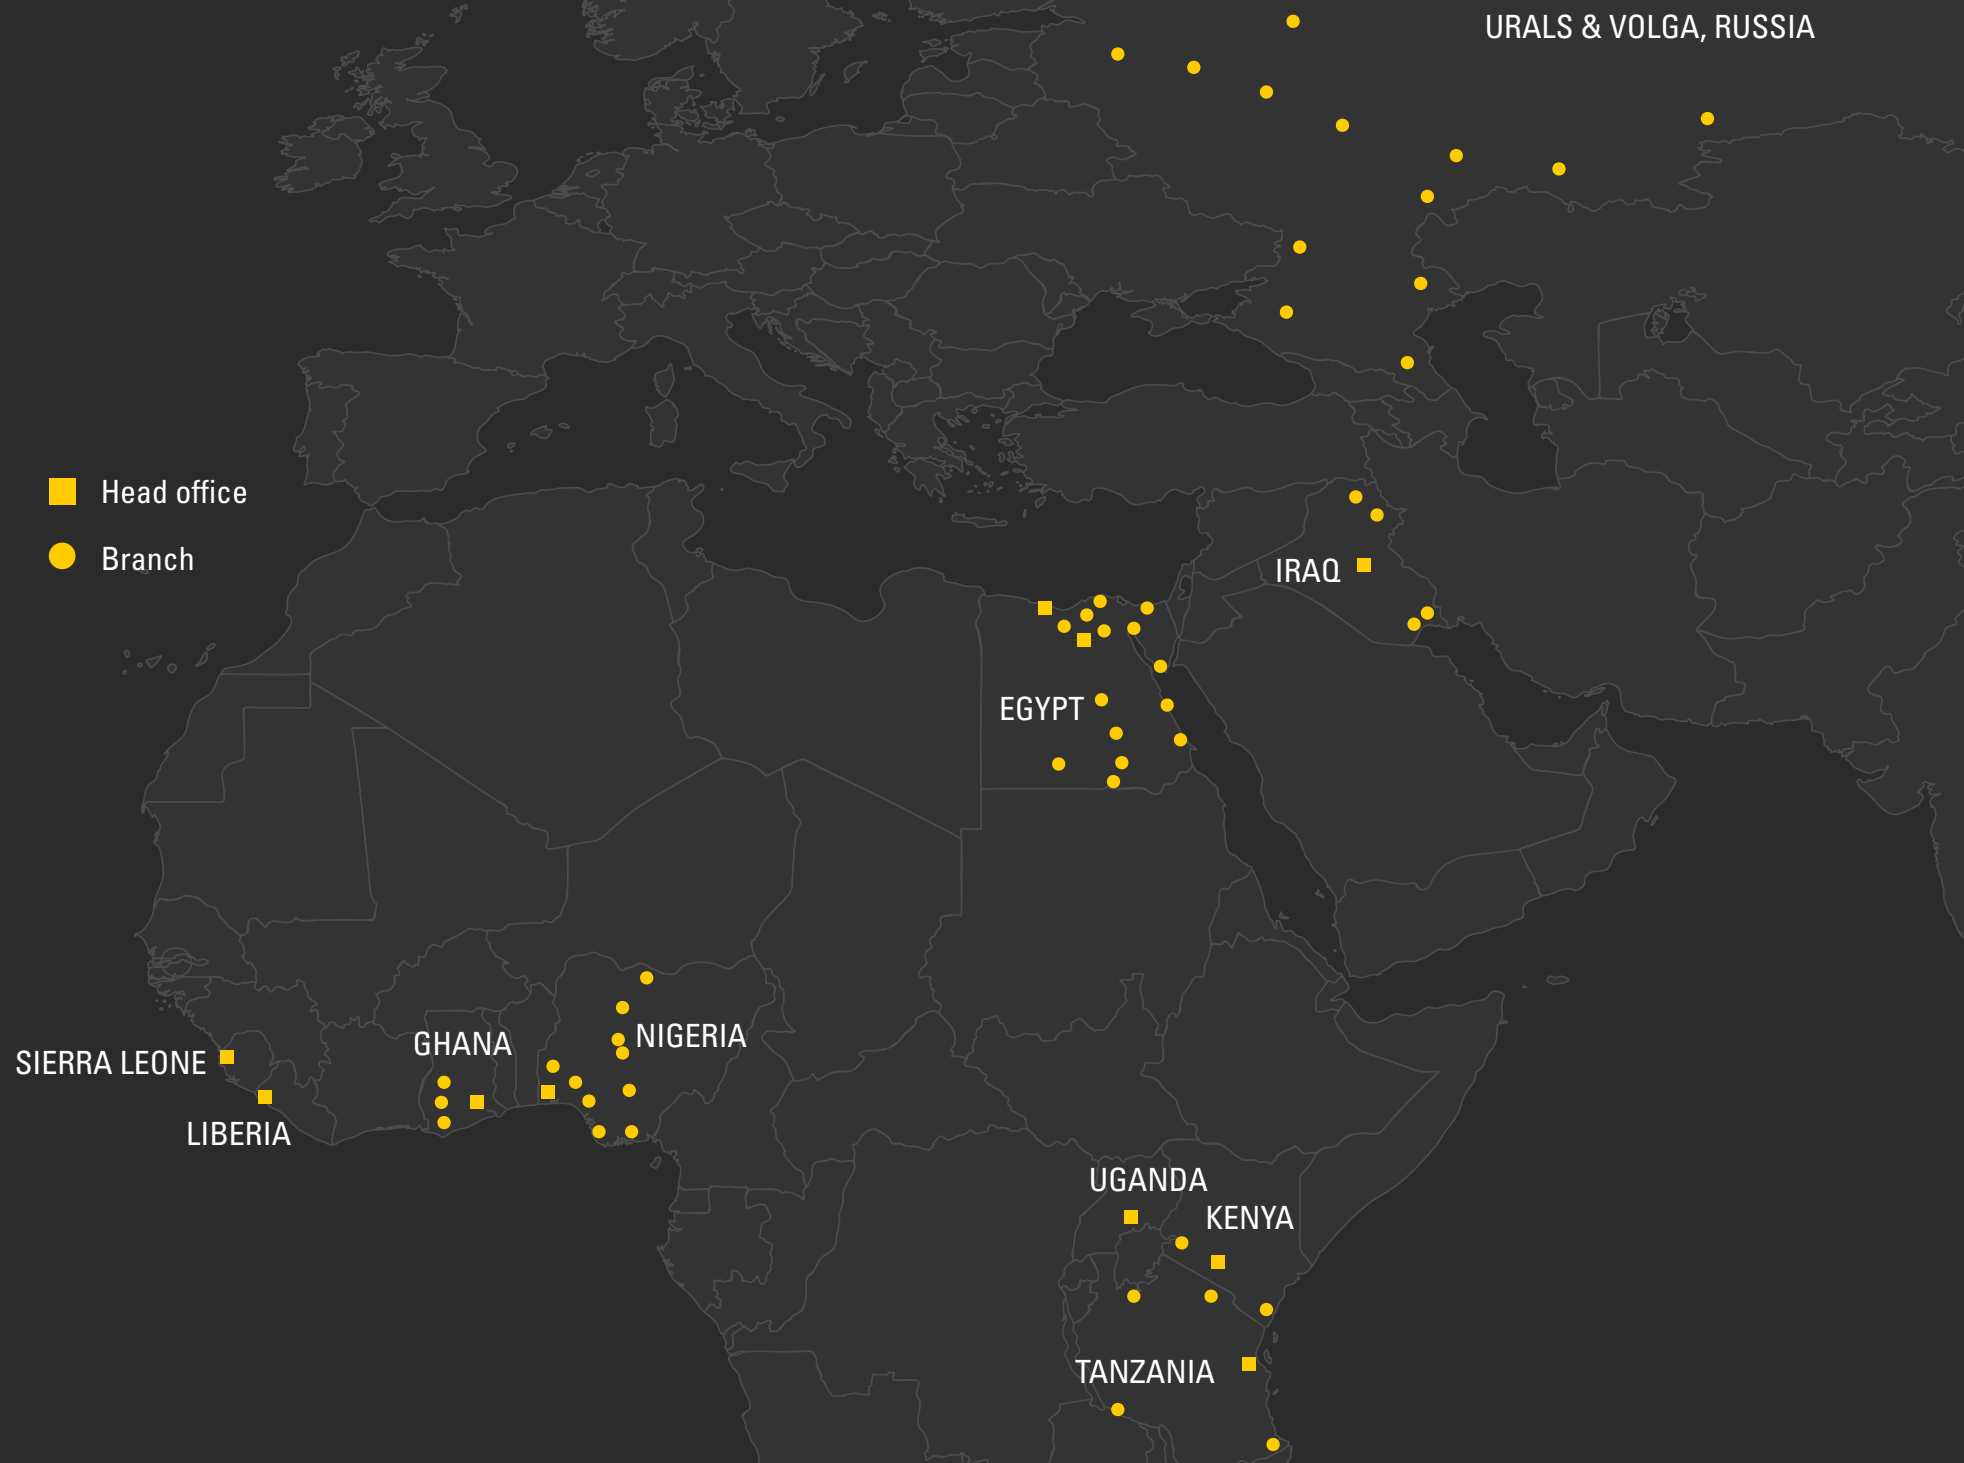

Engineering

Our engineers are specialists, rigorously trained to meet **Cat qualifications**.

There where you need us, around the world

Mantrac invests heavily in ensuring our service teams are there to keep your operation running smoothly, across every market we're in.

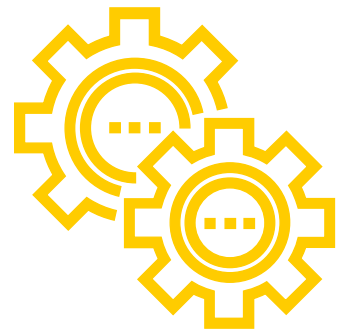

- Head office
- Branch

RESULTS

Mantrac is the only partner that can maximize your investment in Cat

Operational

Efficiency and performance means getting the job done faster and better, while keeping your employees safer and your environments more productive.

Cooperation

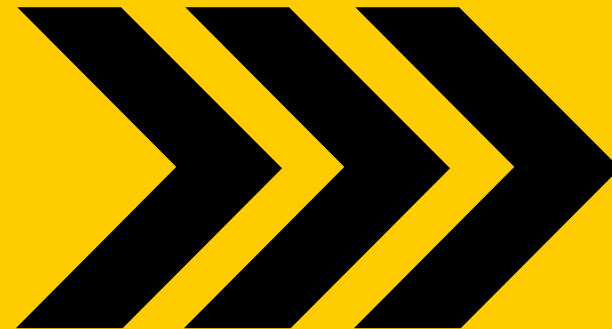

Decades of experience operating in ten countries over three continents has enabled us to provide the stable, supportive network clients trust.

Financial

We invest in people, facilities and technology for best in class service. Increased productivity and equipment lifespans mean the best bottom line.

- **Simplified purchasing and servicing processes**
- **Comprehensive maintenance, support and service**
- **Clear financial value and investment protection**

**AN EASY PATH
TO MAKE YOUR
BUSINESS SUCCEED**

**From mining, oil and gas, to construction,
many of the region's largest and most
successful companies have chosen to
partner with Mantrac.**
